DETAILED ACTION

1. Applicant's response filed on 18 January 2006 has been entered and considered.
2. Claims 1-4, 9, 13, and 14 are pending and presented for examination. Claim 1 has been amended.

Response to Amendment

3. The rejection of claims 1-4, 9, 13, and 14 under 35 USC §102(e) as being anticipated by USPN 6,611,725 B1 to Harrison et al. is withdrawn in light of Applicant's remarks.

4. Claims 1-4, 9, 13, and 14 are allowed. The claims have been renumbered 1-7.

5. The following is an examiner's statement of reasons for allowance:

As per the limitations of claims 1-4, 9, 13, and 14, the prior art of record does not teach or render obvious the use of linking informational data to bi-directionally obtain design information from geometric data and geometry data to obtain design information. The evidence for modifying the prior art teachings by one of ordinary skill level in the art was not uncovered so as to result in the invention as recited. The limitations of independent claims 1, 9, 13, and 14 in combination with the other elements and features of the instant invention are not taught, disclosed, or fairly suggested by the prior arts record. Thereby, rendering claims 1-4, 9, 13, and 14 allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
